That the Provincial Boards should contribute towards the cost of Education (Primary, Intermediate as well as advanced (or University) is a wholesome principle & the sooner the Boards recognise & realise their responsibilities in the matter the better both it will be in the interests of Education. There can be no doubt that the Legislature should reserve to make over Primary Education. Contribution towards Univ. Edn. should I think come in last officially. Copy of letter No.6816-21, dated 23rd March 1918 from the University Registrar , to the Deputy Commissioner and the President of the Dist District Board, T u m k u r.

Adverting to correspondence re: the grant of District Stipends as proposed by the University Council, I am directed to forward herewith a copy of letter No.5622/Edn 65-17-10 dated 11th December1917 from the Secretary to Government , Departments of Education and Agriculture in the matter of enlisting the cooperation of the Municipalities within the District in this respect together wtih a copy of extract from the Proceedings of the meeting of the University Council held on the 9th Ultimo.

As all the Unversity Classes have been formed it is the desire of the Council to give full effect to the scheme from the beginning of next year, so that in accordance with the decision of the Council four stipends may be awarded in each of the Entrance and the B.A. classes.

The total cost will be Rs.2208/- for the year 1918-19 as already intimated and of this amount Government will bear Rs.1104/- provided the District Board and the Municipalities within the District pay the remaining half , viz., Rs.1104/- as noted in the margin.

District Board.Rs.828/-	
Municipalities within the District.Rs.276/-	
TOTAL:	Rs.1104/-

If all the municipalities within the District cooperate, the amount that will have to be paid by the District Board and the municipalities will be as noted above which is very insignificant considering the purpose to which the amount is contributed, viz., encouragement of higher education.

The question of rotation of the Municipalities referred to in para3 of the Secretary's letter may, as resolved by the council, be decided by the District Board.

If in any year any of the stipends are left unawarded in any of the classes for want of students from your District the proportionate amount will be refunded to the District Board and the Municipalities at the end of the year.

In these circumstances, I am to request you again to be so good as to place the subject before the District Board and the Municipal Council's and communicate their views as early as practicable.

The matter may kindly be treated as urgent.

Letter No.5622/Edn65-17-10 dated 11th December 1917, from the Secretary to Government, Department of Education and Agriculture. Bangalore, to the Registrar, Mysore University.

Adverting to Government Order No.928-30/Edn 12-16 dated 12th July 17 directing that the District Boards may be consulted in respect of [illegible] contribution towards the cost of District Stipends at the University and to your letter No.2997 dated 24th October 1917 requesting orders for enlisting the cooperation of the Municipalities also in this respect, I am directed to state that Government approve of the view that Municipalities should for the same reasons as District Boards contribute to the expenditure on the stipends and to suggest the following arrangement for consideration.

Every year each District Board should send three students to the University, bearing half the cost of their stipends, and the Municipalities within the District should send by turns one student each year. When the scheme is in full swing, the District Boards will have 12 students and the municipalities within the District 4 students.

As there are more than four municipalities in each District and the larger Municipalities will naturally bear a greater share of the expenditure the smaller municipalities will be required to contribute for the purpose only by turns and at fairly longer intervals. Thus when the students of one of the smaller municipalities passes out after a four years' course, it will not send a student again immediately but it will await its turn in due course.

I am to request that the arrangement proposed may be considered and the District Boards and the Muncipalities consulted in the matter and a definite scheme submitted for the orders of Government.

The proposal of the Local Board is disallowed on the ground that the Local Boards Regulations, as it stands does not admit of the payment out of their funds of any contribution towards the Cost of District Schools for Universities Education.

Govt. regret that the proposal of the Local Board to contribute towards the University Studies of District Scholarships & others cannot be sanctioned as the said proposal lies outside the scope of the L.B.S.V.P. Regulation as it at present stands.

It is doubtful, whether the L.B. Regn as it stands does not admit of their funds for Scholarships at the Univ. the proper Govt will consider this question.
